Good Turnout to Hear M.L.A.'s Speak

Rev. Peter Dawson, M.L.A. for Little Bow and Mr. M. E. Tanner, M.L.A. for Cardston, addressed a well attended meeting of 200 citizens in the Phillips Hall, Tuesday evening, May 20th.

They gave a very vivid word picture of the important legislation accomplished in the session just closed. They also stressed the necessity for continued co-operation on the part of the citizens of Alberta.

After the meeting Mr. Dawson inspected the river hill north of town.

BASEBALL NOTES

The Foothill Baseball League, consisting of Stavelly, Claresholm, Nanton, Champion, Vulcan and Arrowwood opens this week. With the above teams represented, this year promises to be a real baseball season as each entry is fielding a strong team.

Let us all get out this year and boost for the local team which is shaping up as the best Arrowwood has had for years. Don't forget the dates of the schedule which will be published in next issue.

Girl Guide Notes

The Girl Guides have moved into their new Guide hall. This building was formerly the old Look building and the Village Council is allowing the Scouts, Cubs, and Guides to hold meeting there.

The Guides are very grateful for the use of this hall, and can carry on the Nature part of their work in the manner necessary. They have just purchased Taverner's Birds of Canada and are making a study of the birds of the Arrowwood district. Anyone who has seen a bird unknown to the ordinary ones will be welcome to the use of this Bird Guide to help identify it, and the girls will be glad to help.

QUEENSTOWN ITEMS

Mr. and Mrs. D. Dunsmore and baby son were visitors in Queenstown over the week-end.

Several carloads of people attended the Social Credit Conference in Milo, May 23, with Rev. Peter Dawson and Mr. Tanner as speakers.

The Ladies' Aid tea held in club room Saturday afternoon was quite a successful event.

We are glad to report that Mr. Miller is able to be around again after his recent two months illness.

Mrs. Mallet is slowly recovering from her recent illness. We wish her a speedy recovery.

Miss Mays and Mr. F. Durston were visitors to Calgary over the week-end.

Mr. Jimmy Sultor of the Pool Elevator left for a trip to Scotland Saturday.

Many people are taking advantage of the fine weather by journeying to the Lake or river for picnics.

Seeding is 90 per cent over in this district.

W. I. is serving tea in the afternoon of Friday, May 29.

S.W. Group Arrowwood U.F.W.A. to Hold Tea and Fashion Show

The South West group of the Arrowwood U.F.W.A. are sponsoring a tea and Fashion Show at the home of Mr. and Mrs. W. C. Lyle on Saturday May 30. The T. Eaton Co. have kindly loaned the garments for this occasion, summer afternoon frocks, hats, sports wear, swimning suits, etc. Kiddie clothes will be modelled as well as Ladies Wear.

Tea will be served from 3 till 7. The clothes will be modelled at 4 and 6 p.m. In conjunction with this tea the U.F.W.A. are holding a Home Cooking night. All members are kindly asked to contribute to the Home Cooking table.

SHOULDICE NOTES

Mr. and Mrs. M. Edwards and daughter, accompanied by the two 1st Girls were week-end visitors to Vulcan.

Mr. W. J. Webberg of the Bank of Canada, Calgary, has been a visitor with his mother, Mrs. J. Taylor.

Grasshoppers are thick around Shouldice, and now is the time to start poisoning them when they are small.

Mr. Anstie of Carmangay is a visitor with his many friends in Shouldice and district.

Mr. Watwood, of east of Shouldice had a severe loss by fire on Mon. May 11, when his John Deere tractor backfired in his blacksmith shop. Besides losing his tractor, several granaries, a garage, separator and all his tools were destroyed. Mr. Watwood lost seven full barrels of gasoline and two barrels of lubricating oil along with 19 bags of cement out of the garage himself. A phone call to Queenstown brought a truck-load of men to the scene and they were able to save other surrounding buildings. The loss was not covered by insurance.

The Shouldice School softball team came out on the long end of a 14-3 score against Queenstown Friday. Queenstown scored twice in the first inning, but Peter Paul, the well known Shouldice pitcher began to smoke the ball across the plate giving them no chance of hitting. Ida Mae Williams took Nick Flaudin's place as catcher while Nick played centre field.

Home run hitters were Peter Paul (2), Leonard Brown and Nick Flaudin.

Louis L. Verigin Jr. is still a patient in the Calgary General Hospital. He is reported as recovering steadily.

Mr. N. Nissen and son Eric, of Acme, spent the week-end in Arrowwood.

Mrs. Clark of Didsbury is visiting for a week with her sister, Mrs. J. Mackie.

Mr. and Mrs. Smidt and family of Standard were in Arrowwood on Monday, renewing old acquaintances.

Mr. Jas. Ward, accompanied by two other local farmers journeyed to Lake McGregor Tuesday and report having made a very good catch.

Prospecting activities will be chiefly centred in the Yellowknife area, also on the north and south shores of the east arm of Great Slave Lake including the islands. At least five or six major mining companies will have prospecting parties in this field and indications are that many individual parties will also prospect the area. As part of last year's geological field program 10,000 square miles were examined north of the northwest and east arms of Great Slave Lake, and the geological formation of approximately one-third of this area, which forms the southern part of the Yellowknife Game Preserve, was found to be favourable prospecting ground for precious metals.

The machinery for lowering the lifeboat after it has been occupied has been perfected by the same inventor. According to Salomo Vilas and to witnesses who have seen tests made off the coast and near the town of Mataro, the lifeboat can be lowered in all kinds of weather and it is absolutely non-sinkable. These reports add that the interior of the vessel remained perfectly dry during violent storms and that the air was renewed without admitting any water.

Method: Mix dry ingredients thoroughly. Stir in grated cheese, melting shortening in the boiling water and add. Then add well-beaten eggs. Roll very thin, using bran in place of flour. Sprinkle with salt, cut with cookie cutter. Bake in slow oven (not over 300° degrees). Delicious with a cup of tea or as an accompaniment for salad.

United Church Notes

Subject: The Need of a New Experience of Pentecost.
The question may be asked 'Does the Church of to-day give to Pentecost the place which its importance demands?' Does the average Christian know what Pentecost stands for? We celebrate Christmas and Easter as great religious festivals but most people scarcely know when Pentecost occurs or realize its significance. And yet without that for which it stands the Christian Church might almost as well close its doors for it is helpless in the midst of a pagan world. Every one is invited to observe this festival next Sunday morning and also learn something of its significance for the present age.

Young People's Meeting

When we study a disease we go directly to those little articles that cause the disease—the microbes, and study their actions so as to know the best way to combat the disease.
War is a disease, the worst of all diseases, the fiercest of all plagues. So, why not study the microbes of war?
"Microbes of War"—that is the title of the chapter in "Cry Havoc" that the Young People are going to study on Sunday evening, May 31st, at 7 p.m. All young people are invited to attend these meetings in the basement of the Church of the Brethren.
Do you know what those microbes are, and the before how best to destroy them? Join us and let us study them together.

23 If you were not at work on June 1, give the number of weeks since last employed.
24 If you have a job, you will be asked to state whether it is full time or part time or whether it is a relief job.
25 You will also be asked the number of weeks you have worked during the last twelve months prior to June 1, 1936, including holidays with pay, and your total earnings during the same period.

Rail Grading of Hogs
---A New Marketing System Proves Popular
During the past four weeks one Alberta packing house has bought over two thousand hogs on rail graded, dressed weight basis. This method of buying hogs has just been inaugurated in Alberta the past four weeks, and from all reports, the farmers who have sold their hogs in this manner, are very well satisfied and are coming back again, to sell on the same basis.
The buying and selling of hogs on a dressed weight basis has been in operation in Eastern Canada for over a year. The packers buying on this basis report their shippers are very well pleased.
It is now well over ten years since the Federal Government installed the present system of live grading, and this could be called the first step in the right direction towards raising the right type of hogs. This has been a remarkable improvement, during the past ten years in the percentage of bacon hogs produced. This is a direct result of the present live stock grading.
The Federal Government is now sponsoring what could be called a second step, namely the marketing of hogs on a rail graded, dressed weight basis. A few words of explanation: the marketing of hogs on a dressed weight, rail graded basis, is exactly what the words imply. A farmer delivers his hogs; these hogs are tattooed with a number, so that they may be identified when they are killed. The live hogs are then weighed up, so that a part down payment may be made. This down payment usually runs around 75% of the butcher price. The hogs are then killed and weighed individually, to the exact pound. A Government grading inspector then grades the hogs on the killing floor, according to the standard as set up by the Federal Government, and the final payment is made on the basis of that grade. These grades correspond very closely to the present live grades, and the premiums and discounts paid are practically on the same basis. It will be easily seen that the Grading Inspector is able to do more efficient grading with the split carcass before him, as he does not have to estimate weight, depth of backfat or thickness.
Whip marks, scratches and bruises shall not be a factor in determining the grade, except those hogs that are seriously damaged. Carcasses that are condemned will be paid for on the same basis of the grade in which they would otherwise fall. The Government will issue release on all rail graded hogs.
A farmer might well ask himself: Why should I change over to Rail Grading? How do I benefit by it? How does the hog industry benefit by it? These questions are easily answered. When the present system of live grading was instituted, the policy of paying premiums to farmers who raised good hogs, was started. In a very short time there was a great improvement in the number of bacon hogs marketed.
Today, the following situation confronts us: A number of farmers have progressed to such an extent that it would nearly be impossible for them to raise a larger percentage of Bacon hogs. Another tumbler are just raising an average percent of Bacons, while the balance of the farmers are just raising hogs.
Now the purpose of marketing hogs on a rail graded basis is to give the producer of high quality and high yielding hogs the proper value of his hogs as related to the whole volume of hogs produced. In other words the producer would get paid for what he delivers.
The marketing of hogs on a Rail Graded basis not only gives the producer a premium on his bacon hogs, but also pays on a basis of yield. Hogs that are fed right, and looked after properly, yield high, which results in the producer getting more money for his hogs.
Is this not sufficient incentive for the producer to raise good hogs, thereby benefitting the hog industry at large, and helping himself, at the same time?
By the Ottawa Trade Agreements the Old Country gave Canada a quota of 280 million pounds of bacon, each year. Since this agreement was put in to effect, the closer we have ever come to reaching the quota was, roughly 50%, or 108 million pounds short.
Figured in dollars and cents, this 108 million pound shortage represents, at an average yield of 70 per lb. and an average yield of 65%, around \$16,000,000 worth of live hogs, each year. In number of live hogs, this

would represent approximately one million head each year.
What does all this mean? If just means this: we fell down to the extent of 16 million dollars a year in using our natural resources. We did not raise enough hogs and we did not raise hogs of good enough quality.
If all this shortage could have been consolidated and made up our own Province of Alberta (which would not have been impossible) Alberta would have been the most prosperous province in Canada to-day. Just imagine 16 million dollars a year more income into Alberta and the results thereof!
The marketing of hogs on a Rail Graded basis should be the means (just as it has been in other countries) of increasing the VOLUME and QUALITY of Canadian hogs to such an extent that Canada will be SEC.

ON TO NONE
Vancouver Island, known as the historical cradle of the Pacific Northwest, is to be featured this summer by a special cruise of the Princess Norah, of the Canadian Pacific B.C. service, which will make a complete circuit of the Island, leaving Vancouver at 3 p.m. July 18, for a seven day trip in the paths of the early explorers.

During the winter season just closed, there was witnessed the greatest snow storm to date since travel ever recorded. Over 51.00, more than a 50% greater than last year, made journeys over the west-end from Montreal to all sections in the Laurentians, the mountain paradise to the south of Montreal thoroughly covered by Canadian Pacific Highway. Many came from office in the Maritime United States to enjoy the sport.

Nine weeks have been named and arranged for Vancouver's Golden Jubilee celebrations proper this summer but the festivities will cover the whole season and are expected to attract visitors from all over the world. One of the high lights will be the re-meeting of the arrival of the first Canadian Pacific train half a century ago.

Thirteen short European cruises from British ports will be made between May and October by the Canadian Pacific liners Montserrat and Montserrat year. The Baltic and the Mediterranean will be covered extensively in these voyages.

Dr. A. Compton, physics research expert, recently returned from a trip to Honolulu on S. S. Aorangi, after studying activities of the cosmic ray in the southern hemisphere. The ship's laboratory constructed house on the liner's after-bridge contained the delicate apparatus for the purpose of securing more data on the cosmic ray during the ship's Antipodean trip.
